

How to apply for a place in Skinners' Academy's Year 7 for September 2021

Frequently Asked Questions

1. How do I apply for a place for my child at Skinners' Academy?

- You need to apply for a place via the borough in which your child lives. In your application you need to list all the schools you are applying for in order of preference irrespective of where the schools are. You must submit a valid application to the borough by 31 October 2020 (Hackney prefers all applications to be in by 23 October 2020). The application form may ask for the code for the schools on your form; Skinners' Academy's code is 2046909.
- Primary schools will generally give information or advice to parents about to fill in application forms. Generally, though, the primary schools will know most about their own borough's process.
Example: your child lives in Hackney, but attends a Haringey primary school, that school will be most aware of Haringey's process. You need to make sure that you apply for your child via Hackney Learning Trust ("HLT").
- If you have any application queries you should refer to your home borough's website, and if that doesn't help, contact the Admissions Department at your home borough as soon as possible.

2. Could you explain the Banding Test?

• What is it?

The Banding Test used by Skinners', and by many of the Hackney secondary schools, is an online CAT (Cognitive Abilities Test). It tests reasoning ability. Your child cannot practise for it and they cannot fail it.

• Where does it take place?

If your child attends a Hackney primary school, they will take the test in class between Monday 28 September and Friday 16 October 2020.

If your child attends a non-Hackney primary school they will take the CAT at one of various secondary schools in Hackney used as testing venues. Parents will be notified of date and location of the test via letter from HLT in early to mid-November 2020.

• How are the results used?

All the pupils who have applied to Skinners' are placed in 5 equal bands according to their CAT results. 36 places will be offered to pupils from each band (a total of 180 places). Certain categories of pupil in each band will be given priority e.g. siblings, once places have been allocated to those pupils, the rest of the places within each band are offered to those pupils who live closest to the Academy.*

3. How do I know whether I live near enough to Skinner's Academy to be sure of getting a place?

- Unfortunately we cannot be sure about how near you need to live to the Academy to get a place. This will change each year depending on various factors including how many siblings apply, where the other applicants live etc.
- You may find information about last year's successful applicants useful (this is below), but you must be aware that this does not mean that the same numbers and distances will apply this year.
- To find your nearest schools visit map.lgfl.org.uk/eadmissions, then in the box on the left, type in your postcode (including space), select only secondary schools and a map showing your nearest schools will appear. You can then click on the school icons for further information. Hackney Learning Trust, on our behalf, use the property geographical references of applicant and school addresses for the purpose of calculating distances for admission.
- See the Location map opposite (for approximate distances only).

Information about Applications for Year 7 Places for September 2020

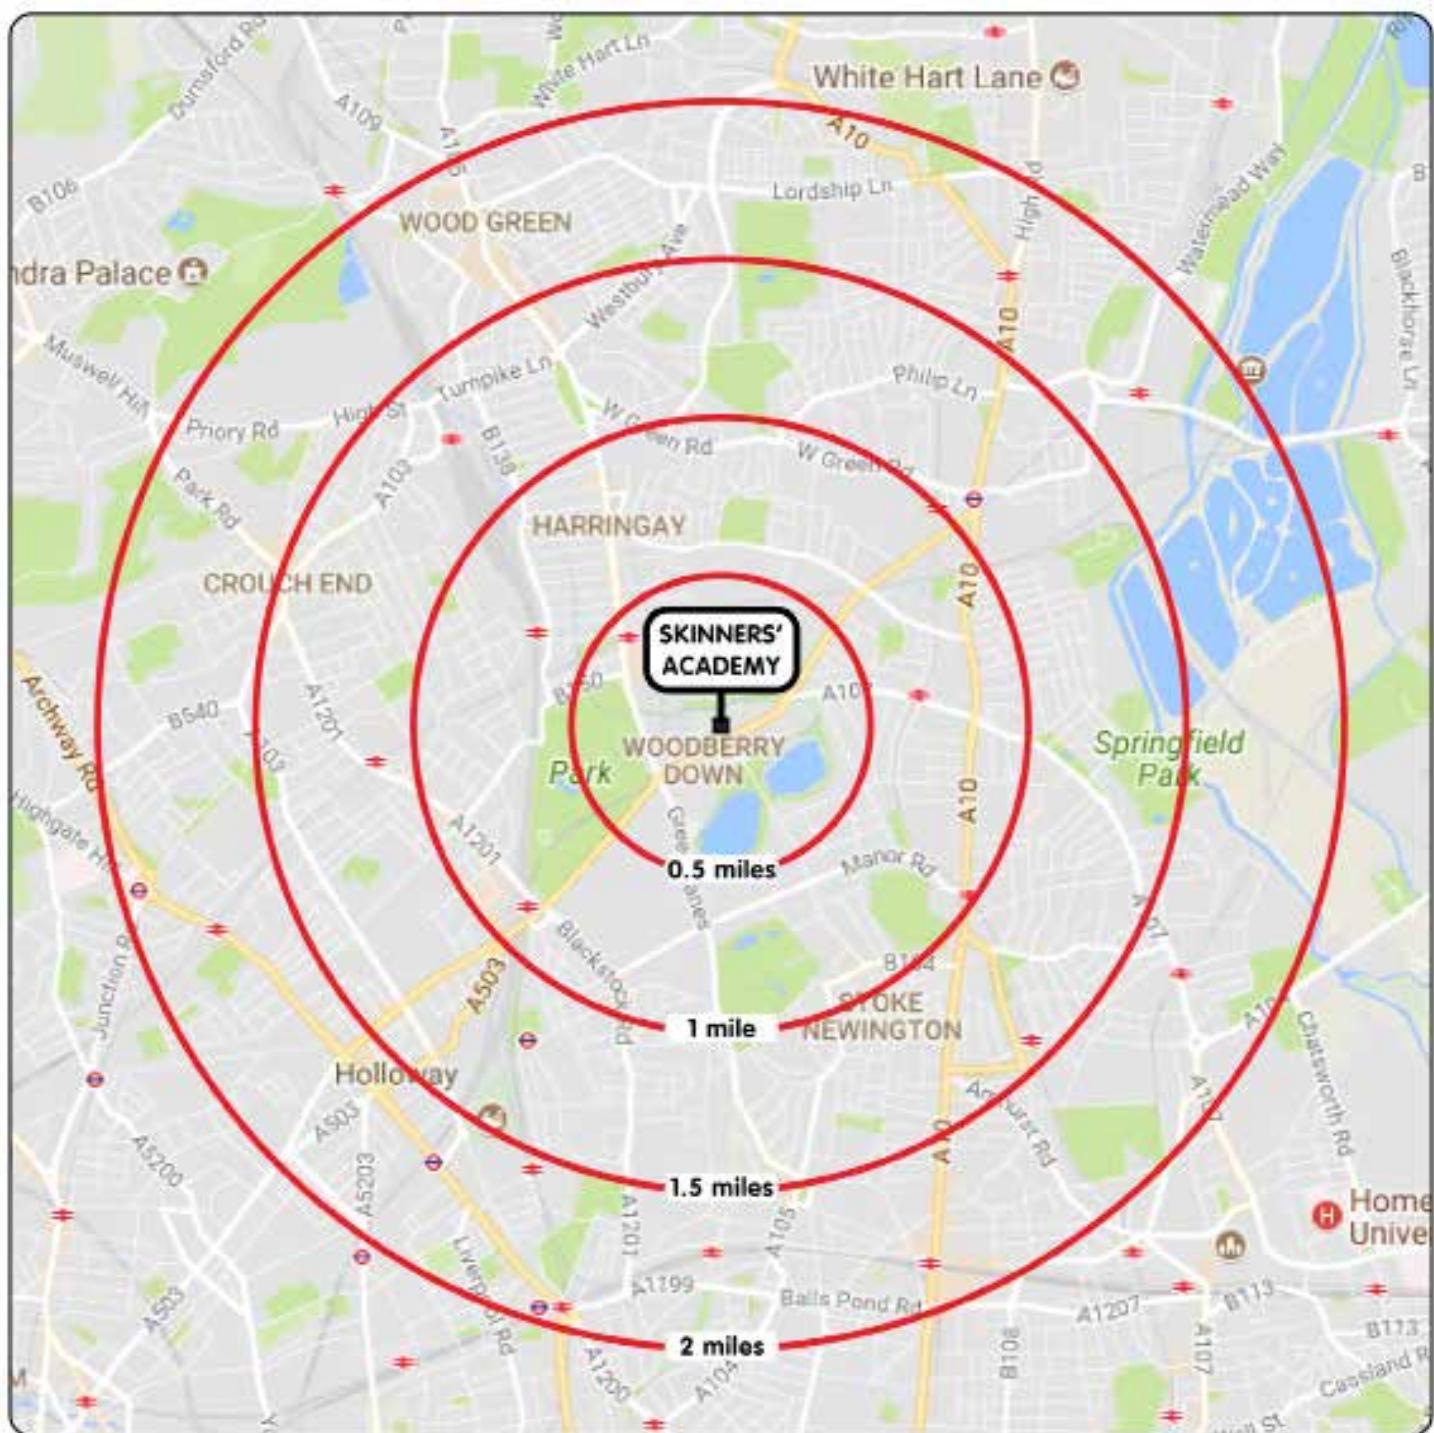

Total number of applications received by Skinner's'	526
---	-----
